

Searching for a private study teacher preparation for IGCSE sciences (chemistry and maths)

**Our son, starting now at 11th grade at an english school in Munich,
needs help in chemistry and mathematic as he will have his
IGCSE exams next autumn.**

**If you can explain well and you are "teenager-friendly" :
means you should have fun, flexibility, patience and creativity to keep the
interest awake :)**

Lessons 1-2 times a week, at our home, from 17:00/18:00 o'clock

**If you are the right one, please send us an e-mail
Steg55@t-online.de**

Looking forward to hear from you.
